New Listings

In 2015, Airbnb reached the Highest number of new listings. 2016 and 2017 saw a restraint also due to tightening in local regulation. Despite this, Airbnb became profitable in the second half of 2016, and 2017 marked the full year of generating income. From 2018, there was a new growth stopped in 2019 by the COVID-19 pandemic.
